### TECH SKILLS

- React, Next.js
- JavaScript, ES6, Typescript
- HTML, CSS, SASS, RWD
- Axios, Fetch, Context API
- Tailwindcss, Bootstrap
- REST
- Jira/Asana/Confluence
- Git, Github, BitBucket
- Python
- Figma, Photoshop
- SQL
- Email coding

## PROJECTS

### Portfolio

The goal of my project was to create a unique portfolio that tells the story of me and my passion. I used React to create a dynamic site that would reflect my creativity and skills. I created the styles using tailwindcss.

### Football club website - LKS

Website of the LKS Kończyce Małe football club. I created it using Next.js. You can read about the club, news, team, table, history, etc.

### Online store - ITSTELA

The premise of the project is to create an online store, using HTML5, CSS3 and JavaScript. The store will be easily expandable, allowing new modules to be added in the future, I plan to code the backend in node.js and use the database.

## COURSES

*Zrozumiecreact (Filip Mamcarczyk) - present*

*React kurs kompletny (Adam Hałasa) - present*
